## Winning the *MegaJackpots Progressive*

Every bet offers a chance to win the *MegaJackpots* progressive. The higher the bet, the better the odds of winning.

Win the *MegaJackpots* progressive with 15 *MegaJackpots* symbols in all reel positions on any spin.

After every spin that doesn't award the Jackpot, a behind-the-scenes Second Chance drawing occurs that can also award the *MegaJackpots* progressive.

The odds of winning the *MegaJackpots* progressive are proportional to the actual bet amount.

For example, a player playing at a 0.20 coin value has twice the chance of winning the *MegaJackpots* progressive as a player playing at a 0.10 coin value in the same game and currency. The expected return to player is the same for both players.

## *Super Stacks Feature*

Each reel in *MegaJackpots Golden Goddess* includes large stacks of the same symbol. Before each spin, a symbol is randomly selected to fill each reel's stacks. Any symbol may appear in any stack, except the Bonus scatter symbol which may appear on reels 2, 3, and 4 in the base game only. The same symbol may appear in large stacks on multiple reels on the same spin. When the same symbol appears in the stacks on adjacent reels, the potential for big wins increases.

## *Free Spins Bonus*

Nine Bonus scatter symbols on the centre three reels trigger the on-screen bonus picker. These symbols are only found on reels 2, 3, and 4. Choose a Bonus symbol to reveal a Goddess, Man, Horse, or Dove symbol. The revealed symbol becomes the *Super Stacks* symbol found on all reels for all spins in the *Free Spins Bonus*. Triggering the *Free Spins Bonus* awards seven free spins. The bonus cannot be retriggered because no Bonus symbols appear on the reels during the *Free Spins Bonus*.

Free spins are played at the same line bet and same number of lines as the triggering spin.

## Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line.

Coinciding wins on different paylines are added.

Wins are shown in currency.

Bonus symbols appear in stacks on reels 2, 3, and 4 in the base game only.

When a player wins the Jackpot, a notification message appears. Customer service will contact the player within 24 hours with details of your Jackpot payout. The award verification may take up to 72 hours, and the win will not be reflected in your account balance. You may continue to play. It will not affect your Jackpot.

The amount paid after verification is approximately the amount seen on the Jackpot meter when the win occurs. Potentially, the awarded Jackpot could be somewhat higher because of display delays. The Jackpot paid may also be higher due to meter smoothing, when some meter growth from peak times may be spread across slower periods. In an exceptionally rare case, the award value could be the Jackpot seed amount if the Jackpot winning outcome occurred just after another player's Jackpot win but before the Jackpot meter was able to reset due to this earlier winner.

All applicable taxes and fees in connection with any winnings awarded to the player, and any other payments to the winning player are his/her sole responsibility. Winnings cannot be transferred, substituted, or redeemed for any other consideration.

The casino may deactivate this game at any time. If the casino decides to continue the game after a Jackpot is won, the casino is under no obligation to re-seed the Jackpot with the amount of the previous seed or any other amount. In the event that the casino decides to terminate the game, or the game becomes permanently unavailable due to unforeseeable circumstances, the casino holds any funds shown in the Jackpot meter. The casino may increase or decrease the size of the Jackpot award by contributing or removing money at any time.

Jackpot represents an increasing top award where the growth is funded by a fixed percentage of each bet placed by all players playing for the jackpot.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction, excluding the **Mega Jackpots** progressive. See the paytable for details. A transaction includes the results of the *Free Spins Bonus* plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

## **Additional Information**

### Lost Connection During Jackpot Win

In the unlikely event of a lost connection or game reset during a jackpot-triggering spin, the jackpot will be awarded.

Notification of the jackpot win will not appear on the game screen when the game is reloaded, and the win will not be reflected in your account balance. Any standard wins will be reflected in your account balance. Continued play, whether in this game or any other, does not affect the jackpot payout. The Customer Service Team will contact you within 24 hours with the details of your jackpot payout. The award verification may take up to 72 hours.

### Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent, except in cases where one spin unlocks a feature for a subsequent spin or series of spins, per the game rules. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size (except the jackpot), balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
