During the base game, winning payouts are shown in the payable and are multiplied by the amount of ways in the winning combination.
During free spins, winning payouts that are shown in the payable are multiplied by the amount of ways in the winning combination and the global multiplier.
Total win amounts are shown for each winning spin.
Any combination of wins in a single game is limited and will not exceed \$250,000.00.

Game Rules:

Star Trek The Next Generation is a 5x5 ways game with 3125 ways to win.
It pays from left to right and all winning combinations must be on consecutive reels starting on the leftmost reel.
Winning symbols are removed from the reels and the remaining symbols fall down.
New symbols then fall down onto the reels to fill any empty spaces.
A round stops when there are no more wins visible on the reels.

Power Meter Rules:

The power meter consists of 3 sections.
Every cascade causes 1 section of the power meter to fill.
A minimum of 3 cascades fills the power meter and triggers the respin bonus.
3 cascades awards 1 respin with +1 respin being awarded for every cascade more than 3.
As the power meter is filling, every winning symbol involved in a cascade is saved.
Only the 3 highest paying saved symbols exist on the respin bonus reels.
If less than 3 symbols are saved, only those symbols will be used in the respin bonus.
The power meter must be filled during one paid spin.
The power meter resets at the start of each paid spin.

Respin Bonus Rules:

The respin bonus pays both ways.
5 of a kind wins pay only 1 way.
The 3 highest paying saved symbols are added to the respin bonus reels and are also placed inside

the power meter.

The symbols inside the power meter are for reference purposes only and do not pay.

Before the respin bonus reels stop, all symbols on the respin bonus reels and inside the power meter convert to mystery symbols.

After the reels stop, players must select 1 mystery symbol inside the power meter.

The selected mystery symbol will reveal 1 of the 3 saved symbols inside the power meter and all matching symbols on the respin bonus reels will also reveal.

Winning symbols are removed from the reels and the remaining symbols fall down.

No new symbols fall down onto the reels to fill any empty spaces during the whole of the respin bonus.

The player must select a second symbol mystery symbol inside the power meter.

The selected mystery symbol will reveal 1 of the remaining 2 saved symbols inside the power meter and all matching symbols on the respin bonus reels will also reveal.

Winning symbols are removed from the reels and the remaining symbols fall down.

The third mystery symbol inside the power meter is revealed and all matching symbols on the respin bonus reels will also reveal.

Winning symbols are removed from the reels and the remaining symbols fall down.

After the third symbol has been revealed and all winning symbols have been removed, if there are no symbols remaining on the respin bonus reels the warp speed wheel feature is triggered.

After the third symbol has been revealed and all winning symbols have been removed, if there are symbols remaining on the respin bonus reels the feature is over.

If the player wins less than the value of their bet on an individual respin bonus, +1 respin is awarded.

These +1 respins continue to be awarded until the player wins equal to or greater than their bet on one individual respin.

Respin bonus total bets are the same as the total bet placed before triggering the bonus.

Warp Speed Wheel Feature Rules:

There are 3 levels of wheel inside the warp speed wheel feature.

If a cash prize is won the warp speed wheel feature ends.

The player spins the level 1 wheel and wins either a cash prize ranging from 10x to 25x or receives a level up.

If the player receives a level up they spin the level 2 wheel and win either a cash prize ranging from 50x to 200x or receives a level up.
